High Performance Video Card

## Capture your memories in High-Definition

The SanDisk Video HD™ memory card is the card you can trust with your video memories: a fast, high-performance solution that is optimised to record beautiful, high-quality digital video. It has a high storage capacity and the flexibility to record in different levels of quality, up to and including HD. Fast transfer speed means you won't be left sitting at your PC, missing out on a precious memory. Also, the included cases and labels get you started on your very own digital video library.

### KEY FEATURES

- High speed, high performance card optimised for capturing HD video
- Take advantage of all your camcorder's features, up to a full 1080 HD setting
- Works well with today's feature-rich high definition camcorders and digital cameras
- Take advantage of HD technology in many different settings, such as AVCHD, H.264 and other standard video formats
- Comes with case and labels that let you preserve and organise your video library
- Solid reliability backed by a limited lifetime warranty
- SanDisk Video HD SDHC™ cards are compatible with many SDHC camcorders or cameras
- SanDisk Video HD Memory Stick PRO Duo™ cards are compatible with Sony's High Definition Camcorders

## SDHC™ Card

### Approximate Recording Time\*

	13 Mbps (HD High)	9 Mbps (HD Standard)	6 Mbps (HD Extended)
4 GB**	40 Minutes*	60 Minutes*	90 Minutes*
8 GB**	80 Minutes*	120 Minutes*	180 Minutes*

## Memory Stick PRO Duo™

### Approximate Recording Time\*

	15 Mbps (HD High)	9 Mbps (HD Standard)	5 Mbps (HD Extended)
4 GB**	30 Minutes*	60 Minutes*	90 Minutes*
8 GB**	60 Minutes*	120 Minutes*	180 Minutes*

\* The recordable times shown in the table are approximations. The actual recording time per card will vary depending upon the model, resolution and compression, and content.

\*\* 1 gigabyte (GB) = 1 billion bytes. Some of the listed capacity is not available for data storage. 8 bits = 1 Byte.
